OVERVIEW

One of the greatest needs today is to rediscover the Biblical vision of marriage and family. The family is the primary cell of both society and the Church. The baptized family participates in the very life of the Church and is a concrete expression of it. In fact, *the Christian family is the domestic church.*

But today the family is deeply fractured. Its purpose, meaning, and very definition are being seriously challenged and distorted. In many families there are problems and wounds that often go untreated, making it difficult for people to experience love and genuine freedom. A critical need today is for us to hear the truth about marriage and family and to experience God's healing grace.

The *Theology of the Family* seeks to restore the Biblical vision of marriage and family, to help people be open to the healing grace of God, and to provide concrete resources to help rebuild the family.

There is hope, healing, and freedom in the family

DVD SERIES

The Biblical Vision of the Family is a 13-part DVD interactive series presented by Dr. Joseph Atkinson. It provides systematic, clear Biblical teaching on the nature of marriage and family. It examines God's plan for both marriage and family and helps people experience healing through foundational Scriptural teaching. The purpose of the series is to help families live out this Biblical vision in their own lives.

Theology of the Family offers guidebooks for the participants, priests, parish coordinators and small group facilitators so the series can be easily put on in your parish in either small or large group settings.

WEBSITE

The website is the communications center of the *Theology of the Family*. Its purpose is to build a community engaged in reclaiming and re-building the Biblical vision of the family.

The site brings together varied and concrete resources to help people rebuild their marriages and families in practical ways, including:

- A section that provides essays on important family topics for men and women
- Excerpts from the book *Biblical and Theological Foundations of the Family*
